

## ECT Specific Net Preamble

Event Name:
Date and Time:
PEP Task #:
Location:
Operator:

Preamble:

All stations on frequency please stand by – All stations on frequency please stand by

This is **<your call>** calling the Cowichan Valley –Emergency Communications Net.

Net Control is **<your call>**, my name is **<your name>** and I am located in **<your geographic location>**

**<Insert the event name provided and insert brief dialogue to describe the situation>**

This is a directed Net and there are no designated relay stations on this Net. Please do not transmit until instructed to do so by the Net Control station. Although there are no designated relay stations on this Net, the Net Controller will ask for relays **<if there are relay stations, state call sign>** if they are required. Emergency traffic will always be recognized immediately. If there is emergency traffic at any point, all stations are asked to stand by and allow the Net Controller to handle the traffic unless instructed otherwise. Please utilize the 146.68 Mt. Brenton repeater for extended local communications – thereby leaving the Mt. Sicker 147.470 repeater available for emergency traffic. At this time, we ask that you refrain from initializing both the IRLP and Island Trunk links on the Mt. Brenton repeater.

When checking into this ECT Net, please state your call sign phonetically, your first name, your location and the Emergency Service you are assigned to. **<Use ECT Operator Status Report during check-in>**.

Roll Call is as follows:

- I will check-in the CVRD Communications Group Coordinator **<please call now>**
- I will take check-ins from Emergency Communications Team Members **<please call now>**
- I will take check-ins from stations with call sign suffixes beginning with ALPHA thru INDIA at this time
- I will take check-ins from stations with call sign suffixes beginning JULIET thru ROMEO at this time
- I will take check-ins from stations with call sign suffixes beginning SIERRA thru ZULU at this time

I will now take any additional check-ins, (late, missed or new) from any station ALPHA thru ZULU

**<Repeat event specific dialogue to inform all stations on frequency>**

**<At the conclusion of the event when you have been instructed to stand down>**

This is **<your call>** standing down the Cowichan Valley Emergency Communications Net in support of **<state event name assigned>** and returning the frequency to general use. Thank you to all operators who supported this event.
